PEDIGREE OF THIS EWE

Only print the farm name and registration number, if you can not include a copy of the pedigree from another organization

The pedigree chart is a tree diagram with three levels. The root node is a horizontal box on the left. A vertical line descends from its center, then turns right to connect to a horizontal line. From this horizontal line, two vertical lines descend to two separate horizontal boxes. From the center of each of these boxes, a vertical line descends to another horizontal line. From this horizontal line, two vertical lines descend to two separate horizontal boxes. From the center of each of these boxes, a vertical line descends to a final horizontal line. From this final horizontal line, two vertical lines descend to two separate horizontal boxes. All boxes are empty and have a thin black border.
